

Coyle's SuperValu Covid-19 Statement

STARTING FRIDAY MARCH 27TH 2020

Due to the COVID-19 virus we will be changing our business model for the time being. We feel the necessary step in order to protect our elderly and at risk individuals would be to offer phone in-curbside service **ONLY**. In order to continue to service the community with minimal risk of spreading the virus and trying to follow the CDC, Federal, State, and Local government guidelines, we will be offering curbside pickup by phone order and delivery within the City to those who are homebound. We will be disinfecting between each customer and be as accommodating as possible. We hope you understand that we do not want to do this but feel we must be proactive rather than reactive. Also, if there comes a time where a mandatory quarantine for positive cases comes and one of us or our employees gets ill it could close us down totally for a period of time. We could all be required to be in quarantine for the recommended amount of time. This could be devastating to the community as far as keeping the supplies coming in and getting to you the customers. This is an agonizing decision not made lightly, but we feel we have the best interest of our community at heart by making this unprecedented and difficult decision. We are trying to follow CDC guidelines, but we cannot insure 6 feet between every customer and the only 10 people in the store at one time rule will be difficult to enforce. We are truly sorry for the inconvenience this may cause. We are trying to figure out how we can still serve the community and also protect everyone and so far this seems like the best option under the current uncertain circumstances.

Thank you for your understanding and patronage. We are truly sorry for the inconvenience this may cause. We hope to return to normal business practices as soon as possible.

We are opening up several phone numbers for you to place an order and here they are.
