

## **“The SILO Event” - Philip, SD**

**SILO is the First Ever Feature Film  
about a Grain Entrapment.**

SILO is the first ever feature film about a grain entrapment. Inspired by true events, SILO follows a harrowing day in an American farm town. The film carries a powerful message around the dangers that we in rural America face, each and every day. Silo works with rural communities just like ours to foster life-saving conversations around farm safety, grain safety, family and mental health. We invite you and your family to our upcoming community film showings. Together, we can help save lives.
